∴ Social Distancing ∴

To break the chain of transmission of corona virus, it is essential that its' spread from one person to other is stopped. Social distancing is a way to achieve it. It is an effective way to control the spread of COVID-19.

∴ Tips for Social Distancing ∴

Avoid contact with someone who is displaying symptoms of Corona Virus (COVID-19). These symptoms include high temperature and/or continuous cough.

Distance of at least 3 feet should be maintained at places like grocery store/bank etc.

Avoid large and small gatherings in public spaces like pubs, restaurants, and similar venues.

Non-essential use of public transport like buses, trains, metro rails, taxi etc should be avoided.

If possible, work from home,

Keep in touch using remote technology such as phone, internet, and social media.

Promotes online education including teaching, training & coaching to avoid large gathering in Schools, College and Universities.
