Awareness regarding Mission LiFE among students

An initiative by NBRI-EIACP in collaboration with CSIR-Jigyasa (27th January 2023)

Students of Kendriya Vidyalaya Gomti Nagar, Lucknow visited CSIR-NBRI on 27th January 2023. These students were introduced to the importance and role of Mission LiFE along with the outreach activities of NBRI-EIACP. Students inculcate information regarding LiFE MISSION and their role in achieving

sustainable development in various aspects of life. Dr. Pankaj Kumar Srivastava (Senior Principal Scientist, Coordinator, EIACP) explained the role of NBRI-EIACP in attaining the goals of Mission LiFE, especially in the Healthy Lifestyle Adopted Action plan. He motivated students to adopt organic products and discussed the negative impacts of single-use plastics. A lecture on the 'Effect of microplastic in the terrestrial environment' was also delivered by Dr. Pankaj Kumar Srivastava.

Students also came to know about the application of "Green Planner" and they practiced Green Planner applicability in their life.

The importance of soil quality and how to measure soil contaminants in the laboratory was explained by Dr. Anju Patel Scientist, and Co-Coordinator of NBRI-EIACP.

NBRI-EIACP team members distributed newsletters, flyers, and brochures to the teachers as well as to the students.
