Day Celebration**

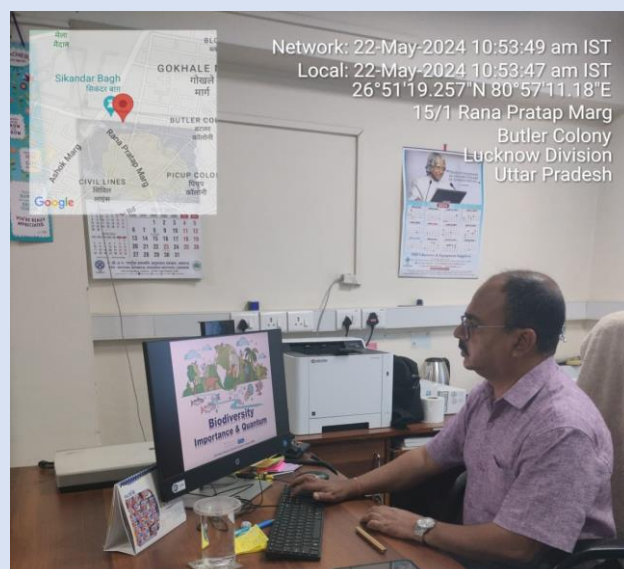

22 May 2024

Dr. Sandhya Mishra

On the occasion of International Day of Biological Diversity Day – 2024 (22nd May) the EIACP- NBRI hosted an online event including lecture series and quiz competition on this year theme of biodiversity- “Be the part of the plan”.

Dr. Sanjeev Nayaka (Head Lichenology and Algology Laboratory CSIR-NBRI) has given a wonderful lecture on the topic “**Biodiversity: Importance & Quantum**” and defines the what is biodiversity and why its importance and how individual people can contribute to conserve the biodiversity.

Dr. Vijay Vishnu Wagh (Principal Scientist, Plant Diversity, Systematics and Herbarium, CSIR-NBRI) given his presentation on the topic “**Biodiversity: Importance and Terminology**”. This presentation provides a brief knowledge on historical concept of species, keystone species, umbrella species, endemism, biodiversity hotspots and their importance in biodiversity conservation.

"Over 150 participants from 11 different states and 16 districts have registered for the event and all attendees have pledged to support the Mission LiFE initiative. Additionally, winners of the quiz competition will receive e-certificates, and all participants have committed to making positive changes in their lifestyles to promote environmental sustainability."
